Terms and conditions

- Editorial department of *Chemical Industry and Engineering Progress* grant applicant a non-exclusive, non-transferable permission for the reuse of the materials published on *Chemical Industry and Engineering Progress*, provided all criteria outlined below are followed.
1. You must obtain permission from at least one of the authors for each work. The author's name and contact information can be found on the first page of the published article.
 2. You agree to cite the material by listing it in the text and references of your new work, including the author's names, (article title), journal title, (publishing year), volume, issue, pages and DOI in a format as your target publication request. For electronic format use, you agree to provide a hyperlink from your new work using the material's DOI on the web page where the work appears. The hyperlink should use the standard DOI resolution URL, <http://dx.doi.org/{DOI}>. The citation elements, including the author's names (or their abbreviations), journal title (or its abbreviation), publishing year, volume, issue, pages and DOI) must be consistent with the version of the material, or our official website.
 3. Permission granted in this license is for a one-time use and does not include permission for any future editions, updates, databases, formats or other matters. Permission must be sought for any additional use.
 4. Use of the material does not and must not imply any endorsement by editorial department of *Chemical Industry and Engineering Progress*.
 5. Editorial department of *Chemical Industry and Engineering Progress* does not imply, purport or intend to grant permission to reuse materials to which it does not hold copyright. It is the requestor's sole responsibility to ensure the licensed material is original to editorial department of *Chemical Industry and Engineering Progress* and does not contain the copyright of another entity, and that the copyright notice of the figure, photograph, cover or table does not indicate it was reprinted by editorial department of *Chemical Industry and Engineering Progress* with permission from another source.
 6. The permission granted herein is personal to the requestor for the use specified and is not transferable or assignable without express written permission of editorial department of *Chemical Industry and Engineering Progress*. This license may not be amended except in writing by editorial department of *Chemical Industry and Engineering Progress*.
 7. You may not alter, edit, modify, extend or assume the material in any manner.
 8. You may translate the materials only when translation rights have been granted. Editorial department of *Chemical Industry and Engineering Progress* is not responsible for any translation errors or omissions.
 9. You may not use the material for promotional, sales, advertising or marketing purposes.
 10. When editorial department of *Chemical Industry and Engineering Progress* finds you use the material in any manner of illegal, harmful to the reputation or interests of the academic community, harmful to the interests of the state, society, groups and individuals, editorial department of *Chemical Industry and Engineering Progress* will revoke this license at any time, bearing no any responsibility, and reserving the right to investigate the economic or legal responsibility.
 11. Editorial department of *Chemical Industry and Engineering Progress* reserves all rights not specifically granted herein.
